FOREWORD

Time is a fleeting thing and memories often lose their clearness with the passing of days and years. In order to keep this memory from fading from view, we, the annual staff, have tried to record some of the highlights at L.C.

To the teachers, we want to express our sincere gratitude for their help in making this school year one of the best.

As our seniors graduate, we extend to them our best wishes and hope the work they have done here will prove of some value as they work diligently for a better tomorrow.

Here is your annual. We hope that in later years, while turning these pages, you will recall your happy memories of the year '62. If you do we will be content, knowing that we have done the thing we were called upon to do.

SUPERINTENDENT

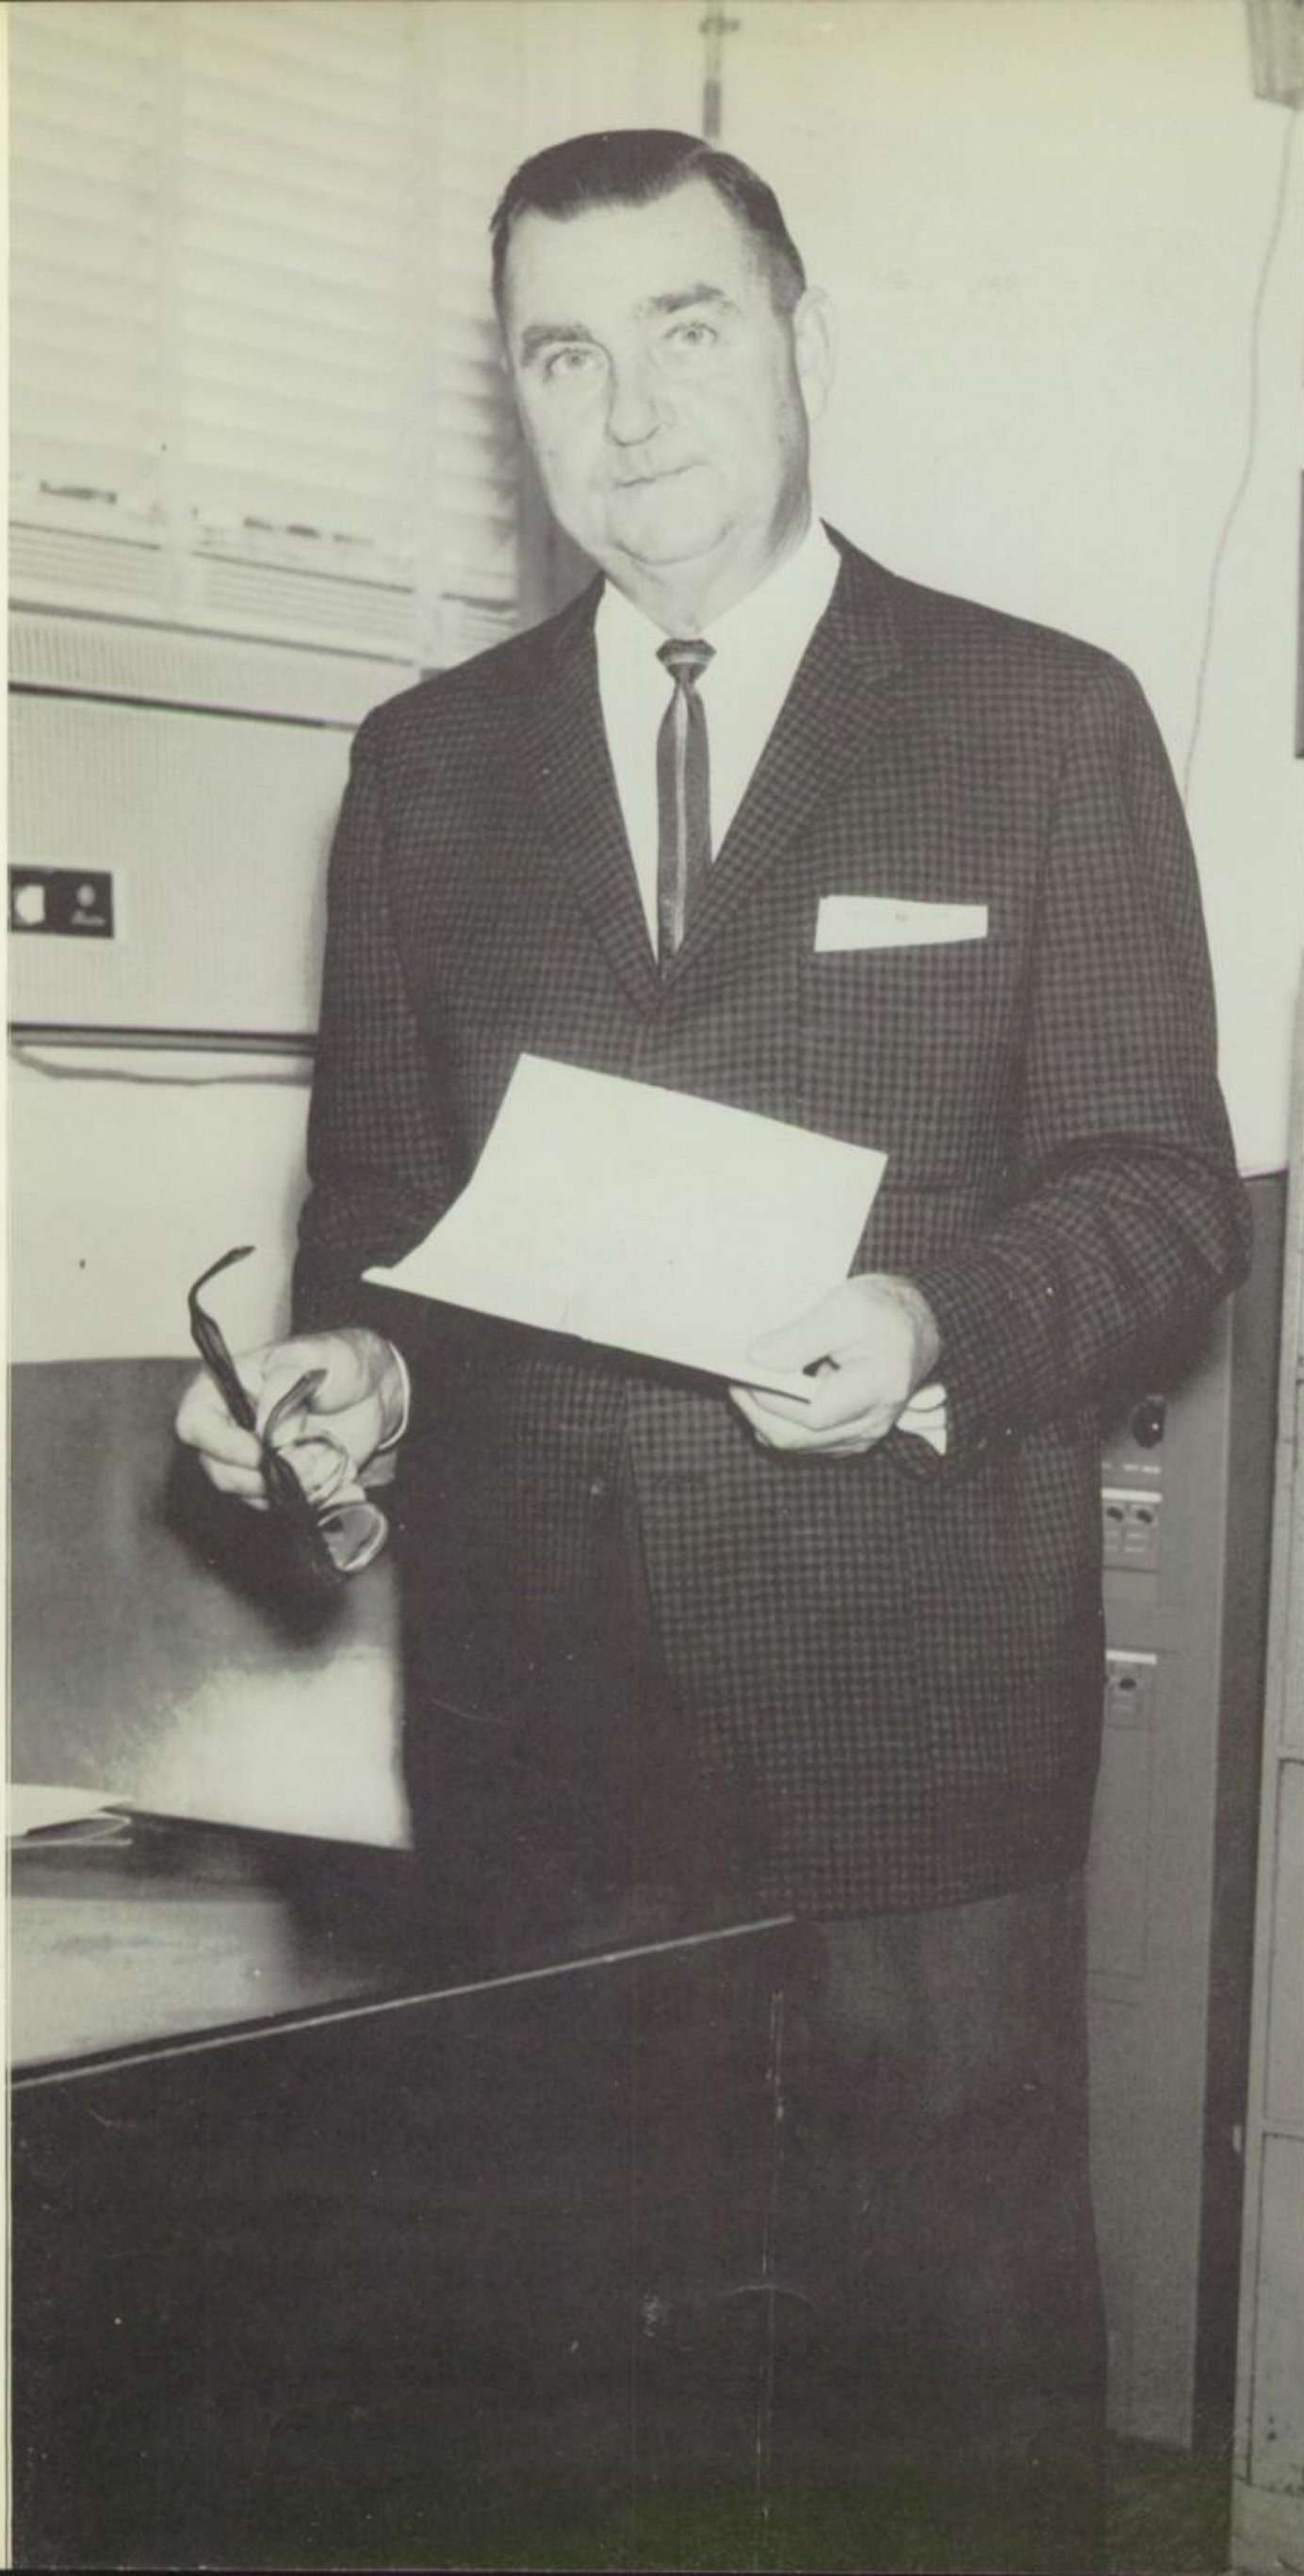

A mere thank you to a wonderful student body like ours seems immediately like too little for too many. But when a superintendent has the pleasure of knowing and working with the splendid people we have in our school, staff members and students alike, gratitude becomes a part of his thinking.

There is no simple or brief manner for listing all the things we have in our school that makes me thankful for being your superintendent. But each of you as an individual is directly responsible for all that is good in our school, and through this you have made a contribution to your own education and to the education of the people around you.

This quality alone makes a good school possible, and I extend to each of you my personal feeling of gratitude.

PRINCIPAL

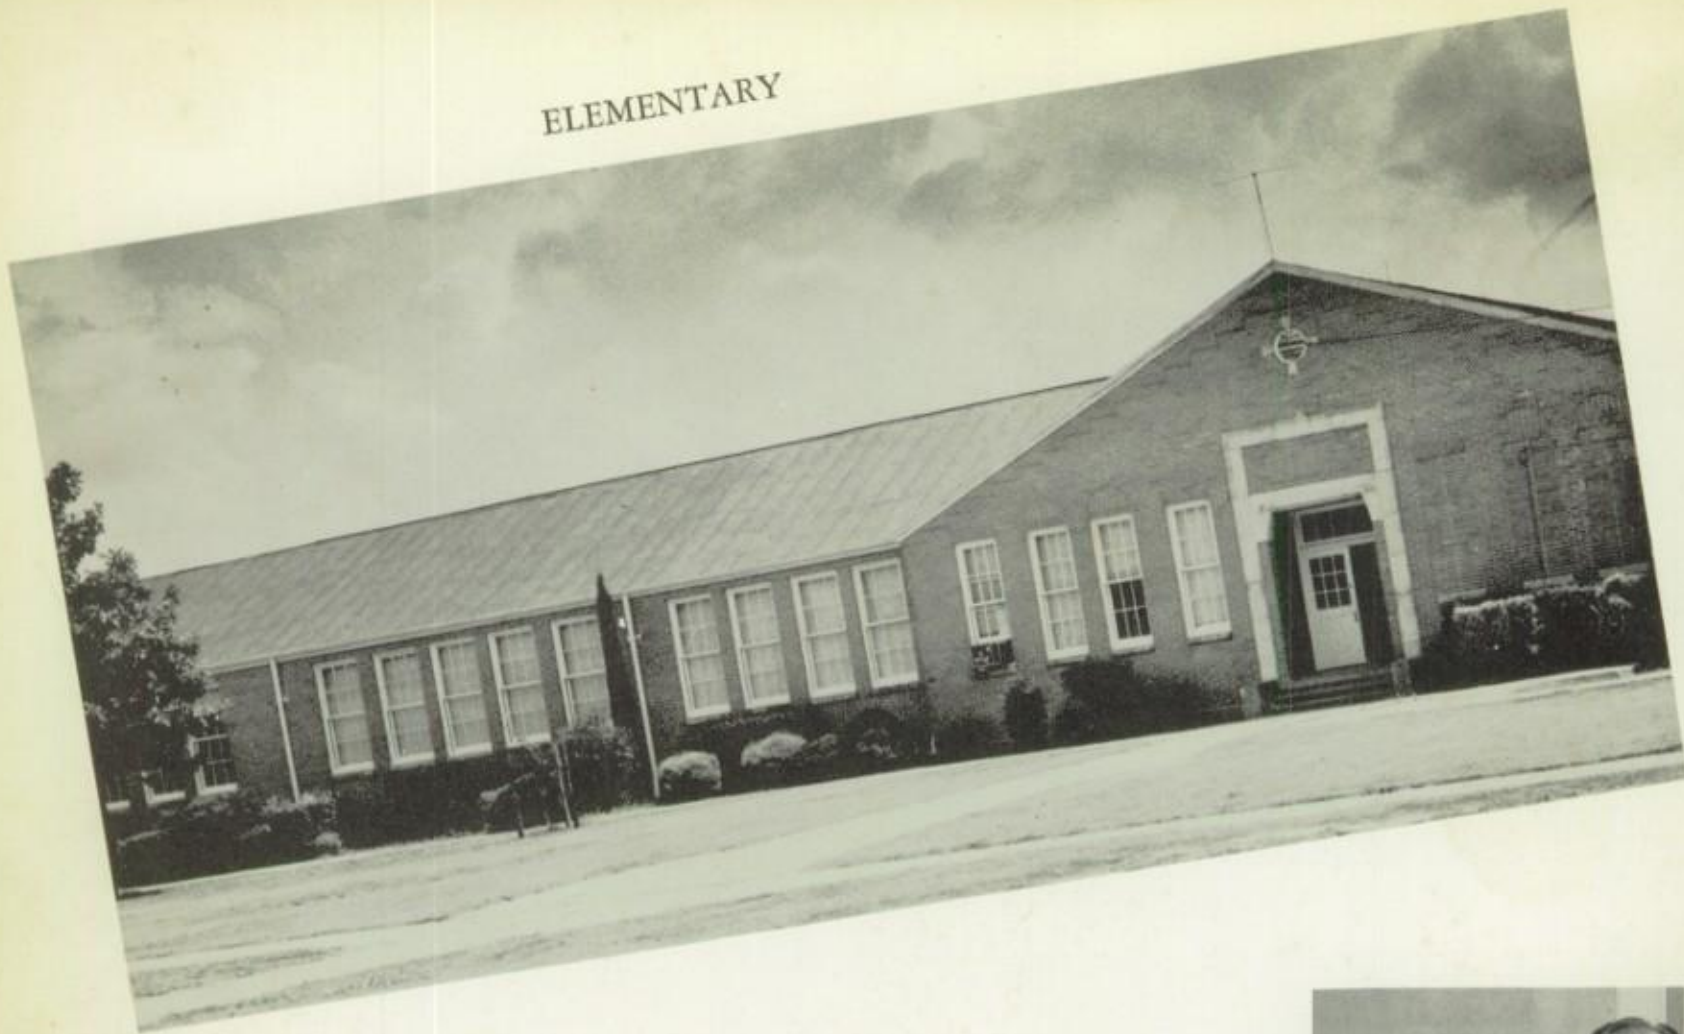

Our yearbook is a valuable asset to our school. With each passing year the yearbook staff tries to preserve the activities that are of importance.

You, the members of the yearbook staff, deserve much credit for the time and effort you have spent on this project. Congratulations to you for doing such a fine job of *The Lion*.

FACULTY

A school may only function properly through efficient leadership. The Faculty of Leverett's Chapel School has provided this leadership. They teach the knowledge necessary for academic learning. They help the student grow mentally and physically. They provide guidance when needed. They are always available for extra help and advice. Members of the faculty contribute freely their time for sponsorship of clubs and organizations. They are truly a valuable asset to the student's role.

STUDENTS SEEK A BROADER EDUCATION

Timed writings give the TYPING student speed as well as accuracy. The students use this course in writing themes, college work, and business life.

Workbooks in the MATH classes prove very successful. Students work according to their rate of progress. The teacher is ready to help any student who comes up against difficult problems.

Laboratory experimenting in CHEMISTRY helps the student to think for himself and to put to practice the many equations and formulas a chemist uses.

ELEMENTARY PRINCIPAL

As the conclusion of another school year draws near, we become conscious of the accomplishments, thrills and associations with our fellow students and teachers. We are indeed indebted to the yearbook sponsor, staff, and publisher for the many wonderful memories that this book shall recall for us in the years to come.

Congratulations on a fine job.

Riley

It has been
wonderful to have
the opportunity of
teaching you! You
are a fine student,
both in your work
and play and, in
your obedience and
cooperation with
the teacher, too.

Keep working and
always be a fine,
upright pupil.

Love to you—
Miss Rogers
